Abstract of JP2002197746

PROBLEM TO BE SOLVED: To suppress static electrification at the time of attaching and operating a magnetic recording medium and to prevent electrostatic breakdown of a magneto-resistive head.

SOLUTION: Antistatic property is imparted to the reel parts 24a, 24b of a magnetic cassette tape 20 and the reel accepting parts 15a, 15b of a magnetic tape drive 10 by adopting a conductive material for the reel parts 24a, 24b and the reel accepting parts 15a, 15b.
